

## **2006 Botrytis Semillon**

**Regional Appellation**      **South Eastern Australia**

**Grape Varieties**            **100% Semillon**

**Alcohol**                        **10.5%**

**Cellaring Potential**        **3 to 5 years**

### **ASSESSMENT**

**Colour**                         **Brilliant Gold.**

**Nose**                          **Aromas of marmalade and honey indicative of good botrytis effected wine.**

**Palate**                         **Concentrated sweet flavours with marmalade and honey characters  
balanced by citrus, cumquat and pineapple acidity.  
This wine has lovely elegant length with a rich mouthfeel and the finish  
is sweet, clean and fresh.**
